Denys Koval

FULL STACK WEB DEVELOPER

✉ kowaldenysproekt@gmail.com   📍 Lviv, Ukraine   📞 +380662419007

Profile

As a highly motivated Full Stack Web Developer with a strong foundation in React, Django, MongoDB, and PostgreSQL, I bring extensive experience in collaborative project development and a passion for continuous learning. Currently studying Artificial Intelligence at Lviv Polytechnic National University, I excel in teamwork, embrace new challenges, and am adept at juggling multiple tasks. My diverse interests, including volleyball and reading, have cultivated a well-rounded skill set, and my fluency in English enables me to thrive in international environments. I have a keen interest in data science and am actively pursuing opportunities to apply my skills and knowledge within this domain as I advance my career.

Employment History

Freelancer

2022 — 2023

In the past year, as a freelance full-stack web developer, I have successfully delivered various projects for diverse clients, focusing on e-commerce, small business websites, and custom web applications. This freelance experience has allowed me to gain insights into different industries and adapt to each client's unique requirements, preparing me for further growth and opportunities in the field.
